CASH! CASH! CASH!

After 21 years of unsatisfactory struggling with the credit system we decide on June 1st prox., to close our books and commence a spot cash business, giving hereafter our paying patrons the benefit of our dead losses by reducing prices to a spot cash basis.

We thank our customers for past patronage and will make it to your interest to call and see us.

We have given the subject long and earnest thought, viewing it from all sides, its pros and cons, and are convinced that we can do our patrons and ourselves more good by adhering strictly to a cash business. We will give some sample prices in a few days.

Our friends who owe balances we will most cordially welcome at an early date.

Everything is now ready for one of the biggest celebrations that Victoria—a city noted all over the continent for her celebrations—has ever held. The official programme, as above, was made up today, and is now in the hands of the printers, who will have copies ready for circulation by the evening. There is only one change that may have to be made, and that is the event announced to take place at the Caledonia Park on Saturday afternoon. This uncertainty is caused by the fact that no answer has yet been received from the New Westminster lacrosse club as to whether a senior team is coming down to play Victoria on that day. If the team does not come the Amities and Seattles will play a second game of baseball.

A number of visitors have already arrived and more are expected this evening and to-morrow morning, but the big crowds will arrive by the excursion steamers to-morrow and on Friday. Excursions are to come from the Mainland, Sound and Island cities, all the steamboat and railway companies having made special rates for the occasion.

This evening the city will commence to put on her holiday dress, and most of the citizens will let business cares drop for a few days and give their time to entertaining visitors and having a good time themselves.

THE REGATTA.

A List of Events That Will Eclipse all Former Celebrations.

Arrangements for the regatta at the Gorge on Friday were completed yesterday evening at a meeting of the regatta committee. The starter's barge was towed up this afternoon and the Arm is beginning to put on its festival dress. The question of having a reception barge will be decided at a meeting of the general committee to be held this evening. A reception tent will, however, be erected by members of the James Bay Athletic Association, where members will entertain their friends.

For the Indian canoe races the following will enter: Layiksom, 1; Kuper Island, 5; Chemainus, 1; Clem Clemilitz (Cowichan), 1; Somenos, 1; Saanich, 2; West Coast, 2; Snohomish (American), 1; Lummi (American), 1. There will also be a number of entries for the klootchman's race. For the other events there are more entries than usual, and the regatta on the whole promises to be much better than any of its predecessors. On account of the military review the canoe sailing races will not start until 3 o'clock on Saturday. The regatta will start at 1 o'clock on Friday, the programme being amended:

1. Peterboro canoe race—Single blade, for championship of British Columbia; course, from starter's barge round buoy and return. Entries—a, F. C. Blomfield, New Westminster; b H. C. Macaulay, Victoria; c, A. Gore, Victoria.

THE WHEELMEN.

No Races, as the Track at Oak Bay is not Ready.

Although there will be no bicycle races during the celebration, as the new track is not yet ready, the members of the Victoria Wheelmen's club will do their share to make the celebration a success. They have furnished their new club rooms, where visiting wheelmen and others will be entertained during their stay in the city. Then there are the decorated and illuminated parades, and the fancy drill, in all of which a large number of riders, including ladies, will take part. A special prize will be given for the best decorated wheel. There will be three prizes for the best decorated wheels and the same number for the best illuminated wheels. Members of the club will meet the incoming steamers and see that visitors are properly cared for. All members are requested to meet at the club rooms this evening and Captain Minor will select the men who are to take part in the fancy drill at 4 o'clock to-morrow.

BASEBALL.

Three Matches to be Played During the Celebration.

Two, if not three, baseball matches will be features of the sports that will occupy the attention of Victorians and their visitors during the next three days. On Friday morning at 9 a.m. two matches will be started, one between the Victoria and Seattle High School clubs at Beacon Hill Park and the other between the Seattles and Amities of Victoria at Caledonia Park. The third match, if it takes place, will be between the Seattles and Amities at Caledonia Park at 3 p.m. on Saturday. There will be a number of changes in the Amities for these matches. Lenfesty, who has been pitching all week and has obtained good command of the ball, will be in the box. There will also be some changes in the in-field, and probably some in the out-field. Jackson has been showing his oldtime form, throwing across the diamond with speed and accuracy, and his batting is in line with the rest of the team. Great interest will be taken in the game, and the Seattle and Tacoma Athletic club members, who are coming over, are anxious to see the Amities play after their victory of two weeks ago. A meeting of the Victoria club will be held this evening at W. Duck's office, Langley street, when the team will be selected. It is expected that Seattle will have to depend upon King for both matches.

LACROSSE.

Capitals of Victoria and Maple Leafs of Westminster to Play.

A dispatch was received this morning from the secretary of the Maple Leaf lacrosse club, of New Westminster, stating that a team would be down on Saturday to meet the Capitals. The game is to be played at the new grounds at Oak Bay, and is the first of the series of intermediate matches. Lieut.-Governor Dewdney is to be asked to formally open the grounds, and Admiral Stephenson and the officers of the navy will be invited to be present. Nothing has yet been decided regarding the senior game at Caledonia Park on Saturday afternoon.

QUEENSBERRY AND DOUGLAS

Have a Little Altercation Which Ends in Their Arrest—Imperial Parliament.

Birdie Sutherland Sues Dudley Majoribanks for Breach of Promise.

London, May 22.—The second trial of Oscar Wilde began to-day at Old Bailey before Justice Wills. A dense crowd of interested spectators were present. Wilde was very restless and looks worried and careworn.

The fashionable afternoon promenade on Piccadilly was well filled with aristocratic spectators to-day when the Marquis of Queensberry met his son, Lord Douglas of Hawick. A few words passed between them and then there was a very determined conflict. Lord Douglas' countenance was disfigured with a black eye. Neither the father nor son preferred a charge, so they were merely accused of disorderly conduct. They will be arraigned in the Marlborough street police court to-morrow.

Lord Douglas banged his father's head with an umbrella during the night to-day and loudly asked whether the Marquis of Queensberry intended to cease writing objectionable letters to Lord Douglas' wife. The police arriving upon the scene Lord Douglas excitedly repeated this accusation of persecution, which he said had occurred since he had gone on the bail bond of Oscar Wilde. The Marquis of Queensberry retorted, "That's my son, I'll fight him anywhere in the three kingdoms for £10,000." The police at first allowed the disputants to go, but the struggle was renewed in another part of Piccadilly and they were arrested. It is reported that Lord Douglas has gone abroad.

The Times has a dispatch from Teheran, which says that the lieutenant-Governor and six officers were murdered and mutilated at Kuichan during the disturbances due to the premature collection of taxes. The Governor escaped.

If the case of Miss Birdie Sutherland, the chorus girl in the Gaiety theatre, against Hon. Dudley Churchill Majoribanks, eldest son of Baron Tweedmouth, for breach of promise, ever comes into court, it will be the most sensational trial since Miss Fortescue, the actress, won £10,000 from Lord Garmoyle on a similar charge.

Miss Sutherland is a very handsome, nearly 6 feet tall, and only 18 years old. Her real name is Annie Louise Watkins. She first met the Hon. Dudley Majoribanks at the Prince of Wales Club. It was a case of love at first sight. He proposed and was accepted. When his parents learned of the affair they were very much disturbed.

Mr. Majoribanks went to Canada with his mother on a visit to the Earl of Aberdeen, governor-general of Canada. The young man did not return with his mother to England, but remained in Canada, and the match was broken off. Miss Sutherland then placed the case in the hands of a well-known theatrical lawyer, who retained in her behalf Sir Edward Clarke, who defended Oscar Wilde in his recent trial. C. F. Gill, who appeared against Wilde on behalf of the treasury, and various other legal talent have also been retained.

CAN'T SIT IN THE COMMONS.

The Committee Reports That Viscount Wolmer Has Become Earl Selborne.

The Issue of a New Writ for an Election in Edinburgh Settles the Question.

London, May 22.—After hearing the report of the special committee appointed to inquire into the claim made by the Earl of Selborne to retain his seat in the House of Commons, although he has succeeded to the peerage and a seat in the House of Lords by the death of his father, the House of Commons to-day agreed to the ministerial motion to issue a new writ for an election in West Edinburgh, the seat represented by Viscount Wolmer, now Earl of Selborne. The committee simply reported that Viscount Wolmer had succeeded to the Earldom.

The motion to issue a new writ for West Edinburgh was agreed upon, in spite of the protests of Hon. George N. Curzon, eldest son of Lord Scarsdale, member of parliament for the Southport division of Lancashire. Mr. Curzon insisted that such a step was entirely new in parliamentary procedure, and that it would involve the House of Commons in consititutional trouble in the future.

The Chancellor of the Exchequer, Sir William Vernon Harcourt, in support of the ministrial motion, said that he treated the Earl of Selborne's claim as being absurd and almost childish. The government, he said, was driven to its present course by the unprecedented conduct of the Earl of Selborne. The decision to issue a new writ for an election contest in Edinburgh apparently settles the question as to whether a peer of the realm can sit in the House of Commons after succeeding to the House of Lords, by deciding that he cannot do so, and it would seem that the decision also settles in the negative the question raised at the same time whether a peer of the realm can be elected to parliament. It was stated at the time the Earl of Selborne decided to make a test case of his right to sit in the House of Commons that Mr. Curzon and William St. John Broderick, member of parliament for the Guildford division of Surrey, the eldest son of Viscount Middleton, intended to follow the Earl's example when, by the death of their fathers, they became peers of the realm.

The Times in a leader on the political situation, this morning, says: "The government may cling to office for a few weeks, and delay for a short time the appeal to the country which has been overdue ever since the collapse of Mr. Gladstone's Irish policy. But the longer the inevitable ending is postponed the more disastrous will be the overthrow of the party which has striven to retain place after it had ceased to be in harmony with the national thought and feeling."

Sir William Vernon Harcourt, the leader of the house, was last night worried in the House by Dr. Donald McGregor, the Scotch Liberal member from Inverness-shire, respecting the Government's intention towards the Crofters bill. Sir William Harcourt replied that he would make a statement on the subject on Thursday next. Dr. McGregor angrily retorted "That is not good enough for me." He announced to the reporter that he intended to resign his seat immediately. Dr. McGregor at once carried out the threat and resigned. The Liberal wire-pullers have been working hard to have him reconsider his motion, especially as the Government's majority on the Welsh Church Disestablishment Bill fell to nine. The lobbyist of the Chronicle says: "It is perfectly clear that unless something is done to draw the party together the government is doomed and that soon."

A Turkish pilgrim steamer, carrying Mohammedan pilgrims going to Mecca, was wrecked on the Red sea, Sunday. There were 700 persons on board, and all were saved.

The Chronicle announces that the committee having in charge the purchase of Thomas Carlyle's house at Chelsea has completed the purchase. Many Americans were among the contributors to the fund. It is proposed to form a memorial museum in the house.

Mme. Carnot has decorated an oratory in her house with inscribed ribbons taken from the wreaths sent to Paris on the occasion of her husband's funeral. In the same room are preserved all similar trophies of an artistic nature, the most remarkable of which is a splendid crown, the gift of Admiral Avelan, on behalf of the Russian fleet.

A Moscow dispatch to the Standard says that a Russian company has obtained a government concession for seal catching on the coasts of the island of Saghallen, St. Jonas island and other parts of the sea of Okhotsk. A tax of five roubles gold on each skin is to be paid into the treasury.

The Chronicle says that in order to throw light on the copyright question it invites British authors and publishers to send information in confidence as to the amounts received in England and collected in Canada for books reprinted in Canada.

London, May 21.—Lieut. Gen. Randall Joseph Feilden, Conservative member of parliament for Chorley, North Lancashire, is dead. He sat for Lancashire, North, from 1880 to 1885, and for Chorley since. His election from there was unopposed. He was opposed even to the consideration of the question of home rule for Ireland.

A feature of the third biennial council of the World's Women's Christian Temperance Union and the nineteenth council of the British Women's Temperance Association is to be the presence in pulpits of different denominations of woman. Among the churches in which women are invited to speak are three of the best known churches in the world, amongst what are called in England "nonconformists." These are Spurgeon's tabernacle, the City Temple (Dr. Parker's), and Western City Road Chapel. Lady Henry Somerset and Miss Willard are to speak in the City Temple at 3:30 o'clock on June 16, the day preceding the great convention. Miss Lillian Phelps, of Canada, will also speak in some prominent church on that day.

It is rumored that Mrs. Frank Leslie will soon arrive in England to visit her ex-mother-in-law, Lady Wilde, and to do what she can to comfort that lady in her trouble in the disgraceful scandal in which her eldest son, Oscar Wilde, has cut so prominent a figure.

A dispatch from Pekin states that the Emperor has issued a decree recalling from the island of Formosa, ceded to Japan by the treaty of peace, all the Chinese officials on that island.

A dispatch from Paris says the French government has decided to ask parliament for a special credit in order to erect a monument to the soldiers who fell during the war between France and Germany from '70 to '71. The monument will be erected on the anniversary of the capitulation of Sedan, which occurred on September 2nd, 1870.

Advices from Rome state that severe earthquake shocks were experienced Sunday evening at Spoleto, a town situated on an isolated hill about 24 miles north of Rieti, which is located forty miles from this city. Full particulars cannot be obtained, but much damage was done and many houses injured. The town is connected across the ravine with the neighboring height by a bridge and an aqueduct six hundred feet high. There are people who fear this structure may be damaged. Assistance has been sent from Rieti. The damaged town has a fine citadel, cathedral, Roman arch, remains of a theatre and other antiquities. Population 7,000. Dispatches from Florence show that the authorities are doing everything to repair the damage. Troops have been actively employed since the disaster in succoring the sufferers in neighboring towns, and the distress is greatly lightened.

DEADLY EXPLOSION.

The Dead Are Known to Number at Least Thirteen.

Oakland, Cal., May 22.—The nitro-glycerine department of the California Powder Works at Hercules, near Port Pinole, were blown up to-day. Four men were in the building at the time. Clare Johnson, T. Taylor, and Charles Conagas, of Martinez, were killed outright. The other, D. A. Dean, was fatally injured. Adjoining the nitro-glycerine department was a tagging house in which two hundred Chinese and two or three white foremen were at work. This building was about destroyed and a number of Chinese are missing. Great confusion followed the explosion. The property loss was very light. The shock was plainly felt twenty or thirty miles away. The dead are known to number at least thirteen.

NEWFOUNDLAND.

La Gascogne Not Sighted—Vast Quantities of Ice.

St. Johns, Nfld., May 21.—Nothing has been heard of the French steamship La Gascogne. Mariners think she is perhaps embayed in the ice and unable to work her way through, or has probably struck a floating iceberg. There are at present great quantities of ice off the Newfoundland coast. The steamer Ulunda upon her arrival here reported passing sixty large icebergs. The Allan liner Carthagenian also met a good deal of ice. As easterly winds have been prevalent it is not improbable that La Gascogne will make this port.

The government is expected to announce to-morrow its retrenchment policy. Much indignation is felt at the grant for educational purposes being reduced 25 per cent. while no salaries are reduced more than 20 per cent., and those only for the officials who are paid the highest.

Weak, Tired, Nervous

Women, who seem to be all worn out, will find in purified blood, made rich and healthy by Hood's Sarsaparilla, permanent relief and strength. The following is from a well known nurse:

"I have suffered for years with female complaints and kidney troubles and I have had a great deal of medical advice during that time, but have received little or no benefit. A friend advised me to take Hood's Sarsaparilla and I began to use it, together with Hood's Pills. I have realized more benefit from these medicines than from anything else I have ever taken. From my personal experience I believe Hood's Sarsaparilla to be a most complete blood purifier." MRS. C. CROMPTON, 7 Cumberland St., Toronto, Ontario.

IN THE EASTERN PROVINCES

Recent Frosts Have Seriously Damaged Grain in Ontario—Farmers Re-Sowing.

Active Operations Stopped on the Railway—Contractors Return to the States.

Chatham, May 21.—The store of A. Cohen was damaged by fire last night to the extent of $6000. It was partly insured. Cohen and his family, who lived upstairs, had a narrow escape.

Quebec, May 21.—Cornelius Sullivan, the harbor master, died last night, aged 75 years. He has been connected with the old Trinity House and had been harbor commissioner for 45 years.

Toronto, May 21.—The board of management of Knox College have recommended the appointment as successor to the late Rev. R. Y. Thompson, professor of apologetics and Old Testament literature, the Rev. Dr. McIntosh, of Philadelphia.

Quebec, May 21.—The cold weather continues. Snow has fallen recently in Rimouski and Matane counties.

Toronto, May 21.—James Carruthers & Co., grain dealers, have received reports from all parts of the province regarding the effect on grains of the recent frost. Fully 80 per cent. of the reports show that fall wheat, barley, peas and oats have been more or less damaged. In some sections the farmers are re-sowing.

Guelph, May 21.—Homer E. Dixon, son of a prominent family in Toronto, who has been clerking in the Dominion Bank here for nearly a year, was shot through the stomach last night. Dixon was handling a revolver when it went off. His recovery is doubtful.

Chatham, May 21.—Solomon Doo and Ellen Jane Rhue, leaders in local colored society, have been lovers, but recently Solomon transferred his affections to another young lady, and yesterday the Rhue girl met the couple, and drawing a big revolver attempted to shoot Doo, but was arrested.

Montreal, May 21.—Napoleon Tarte, a rich farmer of Lanoraie, and a brother of J. Israel Tarte, M. P., yesterday took a dose of croton oil prescribed by Dr St. Germain, and immediately after commenced to suffer most excruciating agony. Local physicians were called in, but it was too late to save the patient's life.

Winnipeg, May 21.—Contractors Grant and Foley of the Hudson Bay railway returned last night from the north accompanied by Chief Engineer Stewart. This morning Messrs. Grant and Foley returned to the States, while Mr. Stewart returned to the work of the survey. President Sutherland announces that the work of grading will begin in two weeks. The general impression is that the contractors are holding off the actual work of construction until the order-in-council is adopted by the parliament at Ottawa.

The name of the young woman found in a dying condition in a Main street block yesterday is Chisholm. It is said that the young man responsible for her ruin may be charged with murder.

Mr. Johnston, who has been a farmer for twenty years in the vicinity of Barrie, Ont., complains to the police here that he has been victimized by a stranger named Jones, whom he accompanied west. After advancing money to Jones, which the latter was to pay on reaching his alleged Manitoba farm, Jones has disappeared.

Four hundred men with outfits left West Selkirk to-day to begin operations on the Lake Winnipeg fisheries.

David Christie Murray, the novelist and author, has been entertaining Winnipeggers since Friday night. He leaves for Calgary to-morrow.

The annual round-up of cattle in the Macleod district begins June 2.

None But Ayer's at the World's Fair.

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed an exhibit at the World's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the World's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."

LETTERS FROM THE PEOPLE.

ALD. WILLIAMS' MOTION.

To the Editor:—To an onlooker at the meeting of the city council last night when the motion of Ald. Williams to have an entertainment barge on the Queen's birthday was brought up it seems very evident that the mayor and several of the aldermen consider a few dollars, when it affects their own pockets, a great deal more than they do when it affects the honor of the city. How does his worship the mayor intend to entertain the guests he, as chief magistrate of the city, has invited, not only from the city and province but also from neighboring cities across the line? Has he considered how his remarks last night have placed him with those of us who are proud of our city's hospitality on all such occasions in former years? Do he and the aldermen know that four or five years ago a similar case confronted the council and that the council, chary of the city's good name, contributed a sum amounting to some $200 or thereabouts to entertain their guests and distinguished visitors, from their own pockets? I am sure that Ald. Williams' move last night has the approval of every person in the city who has the best interests of Victoria at heart, and I consider that it is unquestionably the duty of the mayor and council to take immediate steps to see that they have some suitable place where the mayor can receive the city's guests. Why, the mayor must do so. His reputation and honor are pledged to maintain the dignity of the city. I can see the difficulty the celebration committee had to deal with when they considered the question; they did not have the necessary funds and it was also urged that many citizens objected to paying for what they considered it was the duty of the mayor and council to do.

Is it not to maintain the dignity of this city that we pay them a monthly sum of spending money? I so consider it and expect the mayor and council to do their duty in this matter.

KINDNESS TO ANIMALS.

To the Editor:—Will you kindly allow me a little space in your valuable paper for a few words on the above subject, as the time is near when there will be so much traffic to and from the Gorge. I have looked in vain for any sign of a society having been formed. Is there one? I cannot think so, or one would not so often be pained by seeing so many lame horses in our city. And then that most dreadful check rein, what torture and how unnecessary! In Australia they say none but a poor driver, in fact one who absolutely knew nothing of horses, would use one. Let any one watch a horse pulling up hill, its head moves constantly up and down. Imagine what its suffering must be to have its head held in that unnatural position. I wish our best men here would cry it down. I am glad to see that the Prince of Wales will not countenance the docking of horses' tails. Who is our prince here? I hope we shall hear from him. I have travelled in many lands, but the most painful sight (as far as horses go) was on the Gorge bridge on our most gracious Queen's birthday. Those poor, tired, dusty, and (most of them) ill-used animals, if their drivers would occasionally rub off the perspiration and dust and have the goodness to sponge their mouths they would get better work from them, and I suppose that is what they want. Of course I know that such times as the coming holiday are their harvest, and times have been so hard that they must make all they can "while the sun shines," therefore, I say now, "get your horses ready, feed and groom them well, be gentle and don't make them nervous, see well to your harness and you will not have accidents."

Man is naturally selfish, and the horse is so very willing that often its needs are completely forgotten. For instance, in the winter when a man can scarcely touch a piece of iron or steel it is so awfully cold, he will clap it into a poor dumb brute's mouth and make it kick, when a sharp rub with a piece of cloth would make it less painful for the horse and save the man much trouble and perhaps delay.

AGAINST THE OLD COUNTRY.

It will no doubt be a matter of surprise to many of our readers who have listened to the patriotic politicians trumpeting their loyalty from the housetops, to learn that the national policy is admirably designed to exclude the cheap and excellent manufactured goods of Britain from Canada. It taxes British goods very much higher in the bulk than it taxes American goods, and this in spite of the fact that the mother country admits Canadian produce free, while the United States places a heavy tariff against it. This, to the ordinary and modest patriot, does not savour very strongly of loyalty. It is certainly not a piece of patriotism to blow about. Let us glance at the figures. Under a revenue tariff in 1868 our imports from Britain amounted to $36,000,000; in 1870, $38,000,000; in 1872, $63,000,000; 1873, $68,000,000; but in 1894 they had fallen to $38,717,267—an astonishing decrease of nearly $30,000,000. This can only be explained by the heavy taxes levied by the "patriots" upon British goods.

Our imports from the United States, being taxed much less in the bulk, have undergone a large increase since the introduction of the national policy, which discriminates against British goods in favor of the United States. In 1880 our imports from the United States amounted to $29,000,000; in 1890 they had risen to $52,000,000; and in 1894 to $53,034,100—showing an increase nearly equalling the decrease from Britain.

The trade returns furnish the following figures for 1894, which are clear and conclusive: Dutiable imports from Great Britain, $27,493,160; upon which taxes to the amount of $8,245,845.87 were collected. Dutiable imports from the United States, $25,823,636; on which the duty amounted to only $6,900,950.68. This shows that the Old Country, although admitting Canadian goods free, is met with heavier duties than the States. The free list, however, shows it in a still stronger light. Admitted free from Great Britain, $11,224,107; admitted free from the United States, $27,210,464. That is, the United States, although taxing Canadian goods up to the handle, is permitted to send us over $27,000,000 worth of goods free of duty against Britain's $11,000,000—very much more than double the amount. This is the sort of patriotism that encourages our hostile trade neighbors to the south to send us $53,034,100 worth of commodities, and cuts down the imports from our mother land, which freely opens her ports to our produce, to the comparatively small figures of $38,717,267.

Yet, in the face of the figures, the McKinley-McGreevy combination continue to howl and jabber about their patriotism!

THIS CANADA OF OURS.

The New York Commercial-Advertiser is quoted as an admirer of Canada's great resources, and it is satisfactory indeed to find an American paper appreciating these at their true value. This from the Commercial-Advertiser is all quite correct:

The white pine forests of Canada are alone worth more than her public debts. Her fisheries are the best and most extensive in the world. She has 110,000,000 acres of wild lands upon which the best wheat can be successfully grown, [illegible] coal of good quality in abundance, very near tidewater upon the Atlantic and Pacific; unlimited supplies of high grade iron ore in all the provinces; the best and most extensive nickel mines in the world; extensive and valuable mines of copper and immense deposits of agricultural phosphates in Ontario and Quebec; inexhaustible beds of marble, granite, sandstone and limestone in various colors for building purposes; mines of gold, silver, asbestos, and mica; unsurpassed herds of thoroughbred cattle, horses and sheep; three thousand cheese factories, from which she exports more than 100,000,000 pounds of cheese annually. Her public schools, colleges, universities, charitable institutions and public buildings are worthy of an intelligent, highly civilized Christian people, who govern themselves.

It may perhaps have struck our New York friend as rather strange that a country of such vast extent and such immense natural advantages should have a population of only five millions, especially when the population so long ago as 1881 numbered 4,300,000. An increase of only 700,000 people in about fourteen years in a country so rich naturally surely indicates that there has been criminal mismanagement of the resources. And that is not all, for the government returns state that during the years since 1881 about 900,000 immigrants have come into the country. We do not know of any Canadians who are "ready to decry and belittle their own country," but fortunately there are many who feel that it is time to blush for the stupidity and want of discernment of our rulers responsible for retarding the country's progress.

THE FISHERIES FARCE.

The Colonist had one of its characteristic fits of violence over our exposure of the government's tactics in connection with the salmon fishery. Like other old ladies of infirm temper, the organ fails to appreciate the fact that scolding constitutes a poor defence—worse than no defence, in fact. There is no white man in British Columbia whose intelligence is so poor that he cannot see through the government's pretences and perceive plainly that they have acted from a sense of expediency, not from a sense of justice. If there had been no election in immediate prospect the government would have kept up the snappy tone which ran through Minister Tupper's letter to "My Dear Brior," and the conciliatory phrases addressed to "Dear Mr. Earl" would never have been heard of. The Times is not alone in holding this opinion, as may be seen from the following remarks of the Columbian:

"From the standpoint of the department, it is difficult to understand the remark and the decision implied, about the offal regulation. Notwithstanding that the retreat is attempted to be covered by reference to three or four prospective 'fertilizer factories,' an unconditional and sudden surrender appears to have been made by the fisheries authorities here. The government, as known, has hardly more than completed somewhat expensive proceedings for placing an injunction upon all the canners of the river, restraining them from depositing of offal in the stream during the coming season. And now, because there is the prospect of a fertilizer factory being in operation (it is not stated whether it will be in operation this season or not), the minister of fisheries says 'it will suffice for the present season to instruct the inspector of fisheries not to enforce the offal prohibition.' In other words, because there is to be a fertilizer factory to deal with the offal, therefore the offal may be thrown in the water this season! That appears to be the logic of Minister Costigan's reference to the offal question in his letter to 'Dear Mr. Earle,' and it certainly stultifies the determined attitude of the department for the last year or so, and backed up by the prosecutions and injunctions almost up to date, to prevent a particle of offal being deposited in the river.

"A point in the ministerial epistle is Earle which is noticeable by its absence is reference of any kind to the sturgeon fishing regulations, with regard to which certain reasonable concessions have been repeatedly urged upon the government. Come now, gentlemen! the elections cannot be very long postponed at the farthest. To (try to) save your singed bacon in this province, you had better, with the least possible delay, among other things, fix up those sturgeon regulations in some decent shape; give us that drill shed you promised over a year ago, and which is now urgently needed; and last, but not least, get some of the mud off your skirts, by a right about-face so sudden that it will make your noble heads swim, in that scandalous Fitzsimmons matter. No use of any half measures; for we won't have them!"

We sincerely trust that a perusal of these caustic remarks will not give the Colonist an apoplectic fit.

SPANISH VICTORIES.

The Royal Troops Smiting the Insurgents Hip and Thigh.

Havana, May 22.—There is rejoicing to-day in official circles over the news of the defeat of the rebels in eastern Cuba and the reported death of Jose Marti, who was proclaimed president of the Cuban republic by the revolutionary party, and Col. Salcedo is receiving great praise for the manner in which he encompassed the route of the insurgents. Among the bodies slain was found, it is claimed, that of Joseph Marti, and it is stated the body was positively identified by the insurgent leader. The rebels lost 20 killed and many wounded.

The Spaniards captured a number of documents which has placed the authorities in possession of information which will compromise a number of persons at Santiago de Cuba, Holguin and Havana. The loss on the Spanish side was five killed and seven wounded. The prisoners who were captured during the pursuit say Maxino Comez d'Estrade, another rebel leader, was either killed or wounded and the body is believed to have been carried away by the fleeing insurgents. There is no denying that the victory of the Spanish troops and the death of Jose Marti will have a good effect and Spanish officials are consequently jubilant and inclined to believe that the end of the insurrection is not far distant. A doctor has been sent from Santiago de Cuba to embalm the body of Marti, and it will be afterwards taken in Santiago de Cuba, where the people will be allowed to gaze upon it, in order that there may be no possible doubt as to the identity of the man who has been killed by the troops. This is done in view of the fact that the authorities have no doubt the rebels will deny that Marti has been killed and will encourage his followers with the statement that he is alive.

News has been received of another victory by the Spanish troops over the rebels. The engagement was fought on Wednesday last, May 15, near Janeo river. The rebels retreated and were pursued and were again defeated on the 16th and 17th of May.

CAMPBELL VS. MORRISON.

The Suit for Alleged Slander now Proceeding in Court.

Chief Justice Davie and a common jury, with R. H. Jameson as foreman, are to-day hearing the evidence in the action brought by Stephen Graham Campbell against Dr. Richard Morrison. It will be remembered that the doctor was tried at last spring's assizes for criminal libel and was convicted. The plaintiff in the present action was the prosecutor at the criminal trial and the two cases are somewhat similar. The plaintiff, who claims $5000 damages, was the first witness. He said that the defendant both before and after the first trial had called him a fire fiend and said that he had set fire to his own store or was a party to it.

Louis H. Jenns testified that he was the agent for the insurance company in which Campbell's store was insured and after the fire Dr. Morrison came to his office and asked him if the company would pay the loss. The defendant told him that Campbell either set fire to his own store or got some one to do it for him and he could prove it.

Edwin Oxby, a commercial traveller of Nanaimo, has known the defendant for some time. They met in November last and he asked the doctor what the law suit with Campbell was about. The doctor replied "Oh, the scoundrel! Wasn't it an outrage? I'll have a chance to prove those letters which Campbell either wrote or got some one else to write were true." The doctor then struck his hands together and said: "As sure as that store was on fire Campbell set it on fire."

J. E Barber swore that he heard the defendant say: "I see the fire fiend is around this morning." Campbell was near at the time.

Considerable other evidence to the same effect was given.

The defendant then took the stand on his own behalf. He contradicted the whole case for the prosecution and characterized the plaintiff's procedure as a conspiracy. Campbell and his clique were persecuting him.

The trial was still going on at the time of going to press.

Thornton Fell and J. P. Walls appeared for the prosecution and H. D. Helmcken, Q. C., for the defence.

TO-DAY'S CABLE DISPATCHES.

Valkyrie the Third to be Launched To-Morrow at Glasgow.

London, May 22.—Princess Louise held the last drawing-room of the season at Buckingham Palace on behalf of the Queen. The Princess of Wales is indisposed. The atendance was small.

A despatch from Madrid anounces further details of the loss of the Spanish steamer Carvina, wrecked off Manila, Phillippine Islands, during the typhoon, showing 168 persons drowned. Only two of those on board are believed to have been saved.

The Marquis of Queensberry was present at Wilde's trial to-day. During the morning session Wilde was taken ill and was obliged to leave the court.

A dispatch from Yokohama says: Diplomatic relations between China and Japan have been resumed by the appointment of Count Hayashi, vice-foreign minister, as the Japanese minister at Pekin.

Valkyrie the 3rd will be launched tomorrow at Glasgow. She is said to be 110 feet long and has 26 feet beam. Her dead weight is reported to amount to 300 tons, and it is stated her lead keel weighs 70 tons. The area of her mainsail is announced to be 5,000 square feet. It is stated in a dispatch from Glasgow, whether the Allsa proves faster than the Valkyrie or not, she will cross the Atlantic in autumn to be present at the international matches.

At Marlborough street police court this morning, the Marquis of Queensberry and his son, Lord Douglas of Hawick, were bound over, each in £500 bail, to keep the peace. The appearance in the police court to-day was the result of their encounter yesterday afternoon in Piccadilly.

NANAIMO NEWS.

The Council in Financial Difficulties—Fauquier Discharged.

Nanaimo, May 22.—The case of L. W. Fauquier, charged with embezzlement, was concluded yesterday. Judge Harrison, in summing up the evidence, stated that had proof been shown that the defendant was guilty of the offence charged he would probably have been sentenced to four or five years imprisonment, but from the evidence produced he found that the defendant was not guilty of the charge and therefore he dismissed the case.

For the past six days there has been no work on the Esplanade shaft, and for ten days there has been no vessels taking on coal. The business men think the outlook for the summer is far from bright.

The council are in financial difficulties, having spent this year's revenue already. Sidewalks have been constructed wholesale, but the strictest economy has been observed.

The N. V. C. Co. have completed sufficient of the Commercial street filling to admit of the hose reel contest taking place over the usual course. The start will be made down a slight grade, and as the home team are more used to heavy work they will be at a disadvantage.

THE INDIANS CELEBRATE

A Great Day Among the Dusky Denizens of the Reserve—Potlaches Galore.

A Description of a Potlach or Scramble—A Most Interesting Spectacle.

Over on the Songhees reservation a Union Jack is floating in the breeze from the flagstaff, which is only used on occasions of great importance. The Indians always take great interest in the celebration of the Queen's birthday, and this year an unusually large number of Indians have assembled to participate in the festivities. Nearly a thousand visiting Indians have already arrived. They come from Cowichan, Saanich, Duncan's, Kuper Island, Discovery Island, Beecher Bay, Nanaimo, Chemainus, the West Coast and from the Sound cities. A choice programme of native sports has been prepared, but the "event" which will excite more interest than any other on the list will be the grand potlach to be given by a celebrity named George, who is one of the head men among the Indians on the Songhees reservation. During this week the visiting Indians will give a number of small potlaches, which are free to all. Four were held to-day.

At sunrise this morning the ball opened by a visit of the entire assemblage to the graves of those who had left for the "happy hunting ground." Singing and dancing were indulged in on the road to the burial ground, which is quite a distance from the residential portion of the reserve. Arrived at the graves the older ones among the Songhees related to the visitors tales of the prowess of the departed braves. After the ceremonies were over the party repaired to the village, where, at 8 o'clock, the Cowichan Indians gave the first of the series of potlaches, or as white men would term them "scrambles." As has been stated, these potlaches are free to all; that is, any person may take part in the general scramble which ensues when the signal is given. The presents consist of blankets guns and money, which are thrown right and left with a recklessness which is simply appalling.

A representative of the Times was present at the opening of the second potlach, which commenced at about 11 a. m. About twelve hundred Indians were present and sat in a hollow square, at one end of which was the stage—a rude erection formed of native blankets hung on poles. Mysterious sounds came from behind the "drop curtain," which was manipulated by three sturdy young bucks. Soon the performance began. An aged Indian with blackened face walked to and fro in front of the stage. He held in his hand some strange instrument, hollow and containing a number of pebbles, and when shaken the noise resembled the sound made by dice rattled in a box. At a signal the band within started the music, consisting of drums, horns and rattles, the conductor gave some orders, the curtain rolled up, and the performance was on. What a scene was presented on that stage! About twenty-five men and women in war paint and feathers were ranged in rows. In front were four men who evidently were intended to represent a number of birds. They wore on their heads the most curious carvings of wood in the shape of heads of birds. Part of the bill was so constructed that it might be moved up or down by a system of strings which the "actor" occasionally pulled. At times a shout would go up from the assembled Indians, or they would all join in the chorus of some popular song. At the end of half an hour the performance was over, and then came the most interesting part of the proceedings.

Upon an elevated platform at the rear of the stage was an immense pile of blankets which were now to be scrambled for. At a signal the young men advanced and stood in rows in front of the platform. Two men mounted the platform where the blankets were and the fun commenced. When a blanket was thrown every man made a reach for it with both hands, some jumping high in the air. The blanket is grabbed by perhaps a dozen men or more, who immediately commence tugging and pulling in the most amusing manner. They are, however, most good-natured over the matter and immediately commence bargaining one with the other as to who shall be the happy possessor of the blanket. One man will, say, bid a dollar, which is accepted by the others as a fair price. The successful bidder then takes the blanket and the money is equally divided among those who were holding on to it when the bargain was made. The same thing occurs in the others cases, and it is one of the most interesting sights imaginable to see the various groups tugging, pulling and bargaining and laughing and shouting all the while.

This afternoon a potlach of special interest to the Indians was held in front of the [illegible] as where occurred the affair described above. The sister of the two Indians who were lost on the schooner Earle distributed a large number of blankets and trinkets in memory of her departed relatives. This performance opened with a dance, and women instead of men took part in the scramble.

One cannot imagine a more interesting spectacle than one of these potlaches, and visitors to Victoria should not miss a visit to the reserve during the Indian sports.

AN OPEN LETTER

To the Gentlemen of Victoria and the Surrounding Country:

I have great pleasure in announcing that one of my representatives will call on you at an early date with the largest, most select, and most varied line of woolen patterns for Fall and Winter Suitings ever shown in Victoria. These are direct from the celebrated houses of Mark Fisher, Sons & Co., Huddersfield, England, manufacturers, and proprietors of one of the largest wholesale woollen establishments in the world, and containing such leading lines as the latest patterns in Irish Homespuns, Harris' Scotch Tweeds, Moddock's, Fox's and Mahony's Serges, full and complete lines of Cassimeres, Cheviots, Vicunas, Worsteds; besides all the best brands of Woollens of every description.

These will be sold at such prices as have never been known in Victoria, with the express object of competing with Eastern tailors and keeping trade at home.

The advantage you derive in selecting now, and from these samples, is greater than you imagine.

1st. You have the privilege of selecting from the entire produce of one of the largest woollen factories in the world, besides the leading lines of several others, from patterns shipped to me only in this city, and for the purpose of taking advance orders before the goods are made, enabling me to buy at less than 50 per cent. of the usual jobber's prices.

2nd. As I only order from the samples such goods as I receive orders for in advance, and therefore will not have to carry over the usual surplus stock, I will be able to sell from 25 per cent. to 30 per cent. cheaper and give better workmanship than any other tailor in the city can produce them for.

There is, therefore, no reason why you should not place your order with me now, and every reason why you should. Your own advantage and the desirability of having as much trade as possible done in our own town, warrant it.

Soliciting, therefore, your kind attention, and bespeaking for my representative your consideration,

I am,

Yours respectfully,

GEO. R. JACKSON,

Merchant Tailor, 57 Government St.

The Yankton Reservation Settled Without the Usual Preliminary Row.

La Gascogne Sighted Off Fire Island—Sugar Advancing—College Squabble.

Armour, S. D., May 22.—The opening of the Yankton reservation at noon yesterday was not characterized by the formality and discipline heretofore attending the opening of vast bodies of Indian lands. In fact the "Sooms" were not prevented from going upon the land prior to the hour when a lawful settlement could be made, which rendered the settlement of this reservation a sort of free-for-all. In addition to those who had taken possession of claims during the past few weeks, other "sooners" had been quietly going upon the reservation during the past 24 hours, while scores waited for the hour when the reservation was declared lawfully opened. The newly-opened land is dotted with shanties, homesteaders, and preliminary steps toward the cultivation of lands have been announced. The opening was without conflict of any serious nature, and was without question, in this particular, the most orderly opening of Indian lands that ever took place in the west.

Green Castle, Ind., May 22.—Depauw students had a lively class row here. The "sophs" gave a reception to the seniors at Col. Weaver's residence, of which freshmen and juniors received information during the day. The latter therefore determined to steal a march on the seniors by inviting the girl members in advance of the "sophs" and seniors. The collision between them extended far into the night. Heads were bumped, eyes draped in mourning, and Oxford gowns and mortar-boards emerged from the melee demoralized. One senior was bound and gagged and locked in the armory till midnight.

St. Louis, May. 22.—A special from Ellaville, Fla., to the Republic says: Taree negroes were lynched Saturday night in a dense swamp on the Suwanee river by white men for assaulting a white girl. It is reported that they were flayed alive and then burned, after being subjected to frightful tortures.

Meridan, Miss., May 22.—At yesterday's session of the general assembly of the Cumberland Presbyterian church, Birmingham, Ala., was selected as the place for the next meeting.

Monmouth, Ill., May 22.—Jas. W. Scott, one of the oldest and best known residents in this section, died last evening, aged 97. He was a well-known abolitionist and his home was a station on the underground railroad.

HILL INTERVIEWED.

Not at All Afraid of the C.P.R.—Pacific Greyhounds Will be Established.

New York, May 20.—During an interview with Mr. James Hill regarding the Northern transcontinental lines he stated that Rates will be put up slightly all along the line, and many expenses will be cut off. Moreover, it seems that the Canadian Pacific will be given a lively race in the building and development of the Northwest. Mr. Hill expects much from the town of Great Falls, Mont., as the Pittsburg of the west, and should Tesla succeed at Niagara Falls in making steel from iron ore by electricity, as he says he will soon, the Montana metropolis will become one of the great industrial cities of the Northwest, with its contiguous coal, iron and silver mines.

"Will not the Canadian Pacific be a dangerous competitor?" he was asked.

"Not in the least," answered Mr. Hill. "We can compete with any transcontinental line in the matter of fast time. We have nothing to fear from Canada."

Speaking of the proposed new line of steamships between Japan and the Pacific coast, Mr. Hill said: "Now that the war between China and Japan is virtually over, I expect there will be a big industrial development in these two nations, and the United States will have, as a consequence, a good deal of business with them. If such a line of steamships is established it will have to have new ships for fast service, like the Atlantic liners, and of course that would take some time, but it will come."

St. Paul, May 20.—President J. J. Hill, of the Great Northern, arrived home on Sunday from Europe. In the course of an interview he said he was not in a position at this time to speak of the so-called Northern Pacific deal, but said:

"You may put this down as an assured fact—the Great Northern and Northern Pacific will never be consolidated under one management. You may add that the Northern Pacific will not be bought at all. Such reports are canards, and are not to be considered for a moment. There will be a stronger effort made to develop the country along the Northern Pacific; to sell the lands that await settlement, and to sell them at greatly reduced prices if necessary. I want to add that it is my hope that a time has been reached when the roads will have to give up what they have been doing. The game of cutthroat in the railroad business in this country has got to be discontinued, and, if it is not, the credit of the country will be still more seriously impaired."

The Dispatch says: "There is no doubt in the world that James J. Hill has the Northern Pacific [illegible] corralled it, and although, as he says, it may take some little time for the entire plan to become public, the Dispatch is in a position to give the Northwest assurance that the two great systems of railway will shortly be under the single control of Mr. Hill. His plan of making the road pay by settling the country along its lines at any cost is one that has commended itself to the shareholders abroad, and the consent which has put him in the responsible position he now holds was practically unanimous, so far as the European holders are concerned."

ST. VITUS DANCE.

A MALADY THAT HAS LONG BAFFLED MEDICAL SKILL.

A Speedy Cure for the Trouble at Last Discovered—The Particulars of the Cure of a Little Girl who was a Severe Sufferer.

From the Ottawa Journal.

In a handsome brick residence on the 10th line of Goulbourn township, Carleton Co., lives Mr. Thomas Bradley, one of Goulbourn's most successful farmers. In Mr. Bradley's family is a bright little daughter, 8 years of age, who had been a severe sufferer from St. Vitus dance, and who had been treated by physicians without any beneficial results. Having learned that the little one had been fully restored to health by the use of Dr. Williams' Pink Pills a correspondent of the Journal called at the family residence for the purpose of ascertaining the facts, and found the little girl a picture of brightness and good health. Mrs. Faulkner, a sister of the little one, gave the following information: "About eighteen months ago Alvira was attacked by that terrible malady, St Vitus dance, and became so bad that we called in two doctors, who held out no hope to us of her ultimate cure, and she was so badly affected with the 'dance' as to require almost constant watching. About this time we read in the Ottawa Journal of a similar case cured by the use of Dr. Williams' Pink Pills, which gave us renewed hope. We procured a couple of boxes and before these were all used there was a perceptible improvement. After using six more boxes she was entirely free from the disease, and as you can see is enjoying the best of health. Several months have passed since the use of Pink Pills was discontinued, but there has been no return of the malady, nor any symptoms of it. We are quite certain Dr Williams' Pink Pills cured her and strongly recommend them to similar cases."

Dr Williams' Pink Pills are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, pale and sallow complexion, all forms of weakness either in male or female. Pink Pills are sold by all dealers, or will be sent postpaid on receipt of price, 50 cents per box, or six boxes for $2.50, by addressing Dr Williams' Medicine Co., Brockville, Ont., or Schenectady, N. Y.

FROM BANK TO PRISON.

Many Occupants of U. S. Prisons Have Made the Journey.

Former bank officers to the number of sixty-eight, all serving sentences in one prison! That is the remarkable fact that will appear in the forthcoming report of Warden Hayes, of the Kings county penitentiary.

The Kings county penitentiary is one of the five penal institutions in the country which, under contract with the general government, keep in confinement all prisoners convicted of felonies by United States courts. The other prisons that board Uncle Sam's law breakers are that at Albany, the Erie county penitentiary, near Buffalo; the House of Correction, at Detroit, and the most impregnable prison in the world, the Minnesota state penitentiary, at Stillwater, Minn.

The offences for which the federal courts send prisoners to the penitentiary are for felonious violations of the national banking laws, for robberies of and interference with the United States mails, for counterfeiting the coin or bank notes of the government, for misuse of the mails, for violations of the revenue laws, and for felonies committed in the territories not punishable under tribal laws.

The percentage of bank officials at Albany, Erie, Detroit and Stillwater will average the same as that at the Kings county institution. The total number is equally divided between the five prisons. There are at present 405 "boarders" at Kings, of whom 68 are from banks. The total number of bank defaulers, embezzlers and wreckers formerly connected with national banks alone will, therefore, approximate 340, or about one-sixth of the total number of federal prisoners in confinement for felonies.

Warden Hayes yesterday absolutely refused to permit the compilation of a list of the ex-bank officials now in his custody. He takes the rather novel and humane view that the publication, from time to time, of the reminder of the whereabouts of a convict is an unwarranted humiliation of the family of the convict, and an additional punishment which, as a prison official, he has no right to inflict.

"These men are brought to me," he said, "to safely keep for a certain term of years. That duty I discharge. The committment, since Attorney-General Miller's time, has been so worded as to evade the statute against the employment of these men. They are sentenced to so many years imprisonment at 'hard labor.' In this institution there is no congenial employment for this class of prisoners, no occupations for which [illegible]

"I have here in my population as able financiers and expert accountants as ever lived. They came from all over the East and Southeast. We have them from Louisiana to Maine. If there should be a strike of tellers, cashiers and clerks in any one of the banks of Greater New York I could furnish a complete staff on one hour's notice. Yes, I could fit the bank out with a president and a full force down to, but not including, the janitor. It is a remarkable fact which I have verified by looking over the records that although there have been confined in this prison since it began to receive United States prisoners, twelve or fifteen years ago, a total of 130 bank officers and clerks, we have never as yet had a janitor or watchman or runaway messenger."

As the commitments call for hard labor there is nothing for the warden to do but to put them into the shop. Men who daily handled thousands of dollars in bank notes are now caning chairs. Able financiers, with valuable views on bond issues and popular loans, are becoming deft in the manipulation of needles or the operation of sewing machines in the tailor shop. A dishonest teller may make a good cobbler, but the majority of them are engaged in the manufacture of the fabric known as "tampeek." As prisoners this class has always been found orderly, and cheerfully obedient to the rules of the institution. They are neat and well-mannered, steady patrons of the prison library, and without exception avail themselves to the limit of the privileges given for letter writing. They are, as a class, men who realize the justice of their punishment, and are disposed to make the best of the situation, and lose no chance for the commutation of their sentences.—New York Press.

AMMEN RAM KATAHDIN.

The Craft Represents a New Type of Marine Architecture.

The Katahdin, otherwise known as the Ammen ram, represents a new type of marine architecture. Projectiles from high-powered guns from torpedo tubes form the missiles of the ordinary vessel of war. The Kathadin is designed to be a missile in herself. She has been clothed with armor sufficiently thick to deflect most any projectile which, in action, would be likely to strike her sloping steel sides. She has been given high speed and superior manoeuvring powers, and when she dashes at any enemy her commanding officers will have virtually nothing in the way of a battery to divert their attention from the purpose of the boat, which is to sink the opponent by ramming. And when the vessel hurls her two thousand tons of weight against the sides of any enemy's ship it is safe to predict that the subsequent proceedings will interest that vessel no more.

Admiral Ammen, of the United States navy, when he planned the vessel, made no provision for a battery of any description. A sailor, and not a soldier, is Admiral Ammen. But he must have had in view, when he designed the craft, that maxim taught in military institutions, that bayonet charges which have been futile may be rendered irresistible if soldiers are made to understand that they must depend on the bayonet alone, and are sent to the attack with unloaded guns.

The original design has, however, been modified, and when the vessel goes into commission she will mount four rapid-fire six-pound guns. These, however, are intended for defense from torpedo attacks, and, while the guns are large enough for that purpose, they are not sufficiently powerful to be of any service in an action with a battleship or cruiser, the type of vessel which the Katahdin has been designed to encounter.

Actual test has yet to show what will be the effect of a vessel of the Katahdin's class ramming at full or reduced speed the sides of an ironclad. The steel spur which arms her prow, and which is her chief weapon of offense, is braced and backed in a way that seems to make it impervious to almost any blow. To many naval experts the spur of the British ironclad Camperdown

THERE'S MILLIONS IN IT.

Vast Sums of Money to be Expended in the Development of Our Mines.

Particulars Regarding a Few of the Most Important of the Organizations.

The Ledge.

Spokane is far in the lead as the home of capital, or where moneyed men organize. This spring has witnessed the organization of numerous companies, with fabulous wealth at the back of them—on paper—with that city as headquarters. The majority of these concerns have been formed to work West Kootenay mineral properties. During the week four new corporations have been called into existence, to handle Trail Creek mining properties principally. The combined capital of these companies approximate the immense sum of $2,300,000. They are:—

The West Le Roi and Josie Mining company with a capital stock of $500,000. The incorporators are George H. Casey, of Butte, Mont., Charles G. Griffith, of Helena, Mont.; John M. Burke, Coeur d'Alene, Idaho; D. Heitsman, Sam Silverman, John L. Wilson, John Jones, C. S. Vorhees and H. M. Stephens, all of Spokane, and Ross Thompson, of Rossland. The principal offices are to be in Spokane. The company is to erect all kinds of mining machinery, deal in real estate, etc.

The Paris Belle Gold Mining company will do a general mining business. The term of existence is filed at 50 years, and principal place of doing business is Spokane. The capital stock is $800,000; and 800,000 shares at $1 each. The board of trustees are Chester Glass, P. S. Bryne, David Glass, J. H. Yates, M. M. Cowley and E. D. Olmstead, Spokane; Nicholas, Jerry and Joseph McArthur, Rossland.

The Robert E. Lee mining company have incorporated for a period of 50 years, and will buy, sell, hold, lease and operate mines in the United States and British Columbia. The principal place of business will be in Spokane. The capital stock is $500,000, divided into 500,000 shares at $1 each. John M. Burke, W. Clayton Miller, J. L. Wilson, C. S. Vorhees, C. W. Ide and A. P. Sawyer will act as the board of dictors until the coming election of officers.

The Eureka Concentrating and mining company is another concern that has been incorporated for a period of 50 years, and will buy, sell, hold, lease and operate mines in the United States and British Columbia. Headquarters will be at Spokane. The capital stock is $500,000, divided into 500,000 shares at $1 each. John M. Burke, J. B. Jones, Ross Thompson, S. Rosenhaupt, H. L. Wilson, O. D. Garrison, and G. W. Dickinson will act as the board of directors.

Two other companies have since taken out papers in Spokane, viz.:

Mountain Sprite Mining Company, of Tacoma; capital stock, $500,000, in 500,000 shares of $1 each. Incorporators, Nelson Bennett, M. V. B. Stacy, and Henry Blackwood; to operate mines and handle mining machinery in Washington and British Columbia.

The Lookout Mining and Milling company, with headquarters at Spokane, has been incorporated with a capital of $250,000. G. E. Kumpe, E. W. Talbott, L. R. Lindsey and George E. Pfunder are the trustees. The primary object is to operate the Lookout mine in the Trail Creek district, but by the articles of incorporation the company is authorized to do all things necessary in conducting a general mining business in the United States and British Columbia.

Judge Beatty has just concluded the hearing of the case of Clara E. Anderson and her husband, A. L. Anderson, against the Home Gold Mining Company and R. G. Hanford to foreclose a mortgage on extensive placer mines along Snake river, not far from Shoshone. The mines, which extend along the river for three or four miles, were sold to the defendants in 1893 by Mrs. Anderson and J. M. Bennett, the Union Pacific bridge superintendent, for $20,000. Mr. Bennett was paid in full for his share, receiving $6000, while Mrs. Anderson was paid $2000 and took a mortgage for the balance. The defendants charge they were induced to purchase the ground by misrepresentation. They assert the ground was salted and for that reason they refuse to liquidate. Judge Beatty has taken the matter under advisement.

A. E. Humphreys, president of the Duluth concern that is operating so heavily in the Slocan, is getting his finger into the Trail Creek pie, though he has to pay for it. Last week he bonded a trio of claims, headed by the Monte Cristo, for $65,000. This week he has taken hold of the Kootenay property, on a bond of $75,000, a tenth being paid down, the balance in one year. Phil Lupdwall was the lucky seller, and still retains a tenth interest. The Kootenay is supposed to be on the same ledge.

About four miles from Three Forks on the north fork of Carpenter creek work is being done on several claims. The Phoenix is being worked by Gibson, Smith and Bruner. They have 18 inches of concentrating and 5 of clean ore. Cress, Wall & Ross will make a mine out of the Roulette, and Mitchell is developing his property. These claims are in the dry ore belt, and a trail from Three Forks would enable the Dolly Varden, Alpha and many others to get business.

Hon. A. A. Crane of Kootenai county has been appointed by the President mineral land commissioner for the Coeur d'Alene district. The salary is $10 a day, but the total salary for one year must not exceed $650.

FRUIT PESTS.

How to Prevent and Cure Some of Those now Prevalent.

Mr. R. M. Palmer, inspector of fruit pests, sends the following hints as to how to treat fruit pests:

Tent caterpillars are appearing now in considerable numbers on fruit and other trees and bushes, their nests or webs being easily seen. While these pests are small they return to their nests at night, and the twigs bearing these can usually be cut off and the whole burnt, or they may be destroyed with a torch made of rags dipped in coal oil tied on the end of a pole and applied to the nests. As the insects become larger, they distribute themselves over the entire surface of the trees, etc., and spraying is necessary. For this purpose use (1) Fresh hellebore at the rate of one ounce to two gallons water, or (2) paris green 4 ounces to 50 gallons water, adding to the latter one pound of fresh slaked lime to prevent injury to foliage; keep well stirred while spraying. These two spraying mixtures are useful against all leaf-eating pests.

Summer sprays to keep in check woolly and green aphides should be applied where these pests exist, using one of the following formulas: (1) Soak 4 pounds waste tobacco in 9 gallons hot water for four or five hours (or cold water for four or five days), dissolve one pound whale oil soap in one gallon hot water, strain the tobacco decoction into the dissolved soap and apply the mixture to the trees with a spray pump, using all the force possible. (2) Resin wash—Take 3 pounds common washing soda, 4 pounds resin, and 1 gallon water, heat together until dissolved, and while boiling add gradually 4 gallons warm water, stirring all the time, until the mixture becomes dark in color. When wanted for use dilute as follows: for woolly aphides, 1 part solution to 6 parts warm water; for green aphides, 1 part solution to 10 parts warm water. Apply with a spray pump, using all the force possible. The resin wash is sold in prepared form ready for dilution.

Woolly aphides on the trunks or main limbs of trees may also be easily killed by touching them with a swab dipped in coal oil, but care must be used, as coal oil will injure trees if applied too freely.

For black spot or scab on apples and pears, a fungous disease affecting most orchards in lower British Columbia, the Bordeaux mixture should be used without fail as a preventive.

Formula: Dissolve 4 pounds sulphate (blue vitrol) in four gallons hot water in an earthen or wooden vessel. In another vessel slake 4 pounds quicklime in 4 gallons hot water, strain this into the dissolved blue stone and add sufficient water to make 50 gallons altogether.

Apply with a spray pump and fine nozzle, the object being to deposit a thin film or coating of the mixture upon all parts of the trees. Repeat the spraying in two or three weeks.

NANAIMO GAS COMPANY.

Annual Meeting of the Shareholders Held at Nanaimo.

The annual meeting of the shareholders of the Nanaimo Gas company was held recently, with Dr. Milne, president, in the chair. The report of the directors and the financial statement were read and adopted. The reports show that during the year just closed the consumption of gas has been larger than any previous year, with a corresponding increase in the number of consumers. The new gasometer and connections are more than meeting expectations, while the cost was kept several thousand dollars below the approximate estimate. The greatest harmony existing in all the relations of the company and the fullest confidence prevails in the investment. It has been decided to reduce the price of gas from $3 to $2.50 per thousand, and it is safe to predict that this reduction will meet with general approval. However, it was decided that no dividend be declared this year owing to the considerable amount expended in necessary extension, and also to provide the sinking fund for the gasometer debentures. The directors for the ensuing year are as follows: Dr. Milne, Thomas Shotbolt, J. Mahrer, M. Harris and A. R. Johnston. A meeting of the directors was held immediately after the general meeting, and the following officers elected: G. L. Milne, president, John Mahrer, vice-president; W. K. Leighton, secretary-treasurer; F. G. Peto, auditor; A. Thomas, manager of works.

The directors visited the works and were highly pleased at their excellent condition.

A Great Cabinet Secret

Is the date of the election, which the workers of both parties would like to share; but it is no secret that Rigby Porous Waterproofs have, by the suffrages of the whole people of Canada, been declared to be worthy of the general confidence, because (1) they are superior to anything in the market, considered solely as a waterproof garment, affording perfect protection from the heaviest downpour, while at the same time giving warmth and ventilation (2), the material is not affected in any way by the waterproofing process; (3), the durable character of the garment, perfect as it is in each distinctive feature, gives it its superior value during the wet season. Rigby is in the minds, and often on the backs of thousands. Rigby is what to ask for.

—The Chittagong, the pioneer steamship of the Great Northern line, left Hong Kong on May 15 for Portland.

—The Y. M. C. A. rooms have been decorated for the reception of the Christian Endeavor societies to-night, and an entertaining programme has been prepared by the committee.

—We want suspicious clothing buyers to come here—men and boys who never get suited. The very sight of our handsome clothing at right prices will "wod" them to us. Your money back if not satisfied. Cameron, the cash clothier, 55 Johnson street.

—"Alabama" was again produced at the Victoria theatre to a slim house last night. The production was well staged, the different roles being acceptably presented. The excellence of the piece and the talent of the performers deserved a better gathering.

—School trustees may probably have more trouble over the school children. Several juveniles have been drawing immoral pictures and writing letters of an obscene character. The school trustees had the matter brought to their notice through the investigation of another subject by one of the committees of the board. It is not probable that the affair will be made public, the feelings of the parents being considered. Merited punishment will be given the youthful offenders.

—Mr. F. H. May, Captain Superintendent of the Hong Kong police, and Dr. P. B. C. Ayres, late colonial surgeon at Hong Kong, who were passengers inward by the Empress of India yesterday, both took a prominent part in suppressing the black plague last year. The plague is raging again this year in some of the villages in the vicinity of Hong Kong, and a few cases have been found within the colony. At Macao there were 55 deaths in two days. Dr. Ayres has left the service and Mr. May is on leave of absence.

—The second concert in aid of the piano fund was given in South Park school last night. The opening number was a "Chorus Serenade" by the junior choral class of the Victoria Conservatory of Music, under the direction of Prof. Sharp. A quartette was given by Misses Gardiner, Horton, Frank and Horton, song by Mr. Goodwin, piano solo by Miss A. Hood, readings by Miss Lawson, song by Miss Sharp, piano trio by the Misses Bessie, Kate and Nellie Lovell, violin solo by Mr. Trevelyan Sharp, duet by Mrs. Rickaby and Miss Sharp, and a piano quartette by Misses Walker, Gardiner, Gill and Adney.

To have perfect health you must have pure blood, and the best way to have pure blood is to take Hood's Sarsaparilla.

SEIZED SEALING SCHOONERS.

A Report That Two Canadian Vessels Have Been Seized by Americans.

A dispatch from Port Townsend says that the steamer Al-Ki from Sitka arrived late Monday night, and the purser, Mr. Tideman, reported that the American revenue cutters arrived at that port with two sealers under seizure. Mr. Tideman did not place enough importance in the news to ascertain the names of the vessels, but said he was under the impression that they were British schooners. The cutters Bear and Corwin had called at Sitka and departed for the westward. The Rush was in port and intended to leave for Unalaska and way ports on Tuesday.

The sealers here are not of one opinion regarding the authenticity of the dispatch. There are those who think that it is merely a rumor, while others say they would not be surprised to hear of seizures. But there is no confirmatory information yet to hand. Nearly all the schooners on this coast are in port or have been reported. The Mary Taylor, the Otto and the Shelby are the only Canadian schooners that have not been recently sighted. The Mary Taylor is the only schooner of the three that will probably put into Victoria. The Otto was to have gone to Japan. More definite news is anxiously awaited here.

LA GASCOGNE AGAIN.

The Steamer Overdue, But No Anxiety is Yet Manifested.

New York, May 24.—Up to 11:30 today the French line steamer La Gascogne has not been sighted, and now the opinion is that her machinery has been deranged. At the French line office it was learned to-day that just before the La Gascogne started on her last trip from Havre one of her piston rods had been replaced by a new one. That may be the cause of delay. There has been little anxiety on the part of friends of the passengers, because the experience of last winter showed the captain and crew know well how to handle her. At the office the officials said only a few people had called to inquire and none were nervous. The steamer has 503 passengers and a crew of 210 including officers.

—Pulmonary consumption, in its early stages, may be checked by the use of Ayer's Cherry Pectoral. It stops the distressing cough, soothes irritation of the throat and lungs, and induces much needed repose. Hundreds have testified to the remarkable virtues of this preparation.

YACHT RACES.

Most of the Visitors Have Arrived from Outside Ports.

James Bay is already pretty well filled with yachts, but there are still a few more to arrive from the Sound, and if the wind prevailing to-day keeps up for 24 hours longer there will be some good races to-morrow. Captain H. R. Foot has been busy all day measuring the yachts, and this evening he will place them in their proper classes. The yachts that have already been measured and will take part in the races are: Viola, Bernice, Xora, Flora, Plunger, Linda, White Star, Typhoon, Midget, Josephine, Nautilus, Shadow, Mink, Volage, Dora, Spindrift, Isabel, Fron Frou, Scud, Irene, Daisy Bell, Evelyn May and Widgeon. There are a number of other local and several visiting yachts that will take part. Among the late arrivals are the Xora of the Elliott Bay Yacht Club and the Storm King of Everett. The Xora flies Commodore Hensel's flag, and besides him there are on board Fleet Captain David Boyd, E. Haickling, D. Thompson, M. Strixend, S. Rothe, W. Barry, D. B. Porter, E. Neston and James Lee. The Storm King's crew consists of Commodore A. R. Whitney of the Everett Yacht club, and Messrs. J. D. Elmendorf and M. H. Wildes.

The schedule for the races follows:

Class A—Red flag; preparatory gun, 12:45 p.m.; start, 1 p.m.

Class B—White flag; starting gun, 1:15 p.m.

Class C—Blue flag; starting gun, 1:30 p.m.

Class D—Yellow flag; starting gun, 1:45 p.m.

Class A and B sail the course three times; class C twice, and class D once. The starting gun for all classes but D will be the preparatory gun for the next following class.

SHAM BATTLE.

Most Attractive Event of the Celebration on Saturday.

The one thing talked about above all else is the sham battle at Beacon Hill on Saturday morning. This will undoubtedly attract a great many from the Sound cities, and if the day is favorable will be a sight worth coming a long way to see. It will be of special interest to our American cousins from the fact that the Royal Arthur, flag ship of the fleet, which, when at Coriato a few weeks ago, landed a force of men and took possession of the town, will exhibit similar manoeuvres off Beacon Hill. The land forces, which will consist of the R. M. L., R. M. A., R. E., and B. C. B. G. A., will be under command of Lieut.-Col. Rawstorne, R. M. A., while Captain Stokes will command the attacking party, to consist of bluejackets from H. M. ships. The bluejackets will approach the hill from Humboldt street. After the battle there will be a review and the troops will march past the admiral and staff.

HORSE RACES

Programme and Entries for Races at Bowker Park on Saturday.

1st Race—Open to gentlemen's road horses that are eligible to a 3-minute class, to be driven by gentlemen drivers, to road carts. 1st prize, silver water pitcher, value, $25; 2nd prize, silver card basket, value, $10. Entrance fee $2.

2nd Race—Cigar and Bonnet Race, half mile heats, open to gentlemen's saddle horses, gentlemen riders. 1st prize, cup, valued at $25; 2nd prize, silver champagne bottle, value, $15. Entrance $2.

3rd Race—Grand Steeple Chase, open to gentlemen's hunters that have not raced for public money, gentlemen riders. 1st prize, silver cup, value, $45; 2nd prize, silver smoking set, value, $20. Entrance $2.

4th Race—Indian Pony Race, half mile heats, 2 in 3, to be ridden by full blooded Indians. Purse $25, divided.

Conditions—No. 1. Half mile heats; two out of three; road cart or buggy. No. 2. Half mile heats; open to all saddle horses; gentlemen riders. No. 3. Open to all gentlemen's ordinary horses and jumpers; 1 1-4 miles; over 12 jumps; Minimum weight. Arrangements have been made by Mr. Stanley, the lessee of Bowker Park, to have a polo race as well as an Indian pony race. In the polo race, ponies will have to be under the polo standard, 14 1-2, and carry not less than 150 pounds.

The following is a list of the entries:

First Race, Trotting—Eberts' b. g. Billy Rooker, black; M. Powers' cr. m. Black Bess, blue; J. S. Byrns' cr. g. Excelsior, white and blue; De Winter's c. g. Barkis, red; Gardener's c. g. Billy, ——.

Second Race, Cigar and Bonnet Race—L. Stanley, c. g. Riley, blue and gold sash; J. A. Aikman's ch. g. Mack, blue and white; W. T. Drake's ch. g. Pet, cherry and black; A. Payne's ch. m. Taffy, black and gold stripes.

Third Race, Grand Steeple Chase—Dr. Duncan's c. g. Outerlo, crimson; L. Stanley's c. g. Riley, blue, old gold sash; A. Payne's ch. m. Taffy, black and gold; H. Brook's c. g. Pat, white and blue; — Gambling's g. m. Annette.

Fourth Race, Indian Pony Race—Post entries; 12 already entered.

Fifth Race, Polo Pony Race—Half mile heats, 2 in 3; for ponies 14 1-2 hands high and under; gentlemen riders; post entries. A big entry is expected.

CELEBRATION NOTES.

There is to be a row among the Indians who are to take part in the canoe races. It seems that the party from Cowichan have brought two new canoes with them, 46 feet long, and it is claimed by the others that canoes of such length must not be allowed to enter in the same class with the 40 ft. canoes. The matter will, no doubt, be amicably settled before the day of the regatta, but just now there are mutterings, not loud, but deep among the Indians.

This is the season when the young man from the country, with hay-seed in his hair, meets the man with the thimble and the pea. Yes, meets him for a little while, and goes away to weep. So the press utters its annual warning to look out for the gang who are on the look out for "suckers." The usual "sure thing" men will be here from the Sound, and it is probable that, notwithstanding all warning, the usual batch of "jays" will be bagged in the usual manner.

The prizes for the yacht races are on view in Challoner & Mitchell's window. The cups are very handsome ones.

The public schools will be closed both to-morrow and on Friday.

The street railway company have made every arrangement for the convenience of its patrons during the celebration.

On Saturday morning V. H. Sutton of Chicago will walk five miles against J. Bulmenthal at the Hill.

At Beacon Hill on Saturday morning there will be a team shoot at 25 blue rocks; teams to consist of six men each. In the afternoon there will be five events at Oak Bay.

Late Locals.

—An excellent programme of eighteen dances has been prepared for the fancy dress ball to be given to-morrow evening at Assembly Hall. Tickets can be had from the members of the committee or at Messrs. T. N. Hibben & Co. and M. W. Waitt & Co.

—At the Victoria Theatre to-morrow evening the members of the Tacoma Athletic Club will present "Injured Innocents." The members of the company have been rehearsing for some time, and the show given by them is said to be excellent. No doubt they will have a crowded house.

—The Calvary Baptist church last evening welcomed their pastor, Rev. Ralph W. Trotter. Upon the platform were Rev. P. H. McEwen (chairman), Reverends D. MacRae, S. Cleaver, W. Leslie Clay, Clement King and the pastor elect. The church was artistically decorated with flowers, and the ladies of the congregation had furnished a very beautiful library and study for the minister. A large number turned out to greet Rev. Ralph W. Trotter, and the sister church, Emmanuel, was largely represented. Rev. Dr. Campbell sent a letter of kindly welcome but regretting his inability to be present. Miss Bessie Walker, on behalf of the church and congregation, read an address of welcome. Reverends McEwen, Clay, Cleaver, King and MacRae welcomed the new minister on behalf of their congregations. Rev. Mr. Trotter replied briefly.

—The local sealers had a very interesting story going the rounds to-day that the Halifax schooner Director, which arrived Monday from Nova Scotia, was reported having been fired on by a Chilean cruiser off Staten Island, the extreme southern point of South America. Staten Island is a seal rookery, and in common with the straits of Magellan is a prolific source of seal fishing. The Director came into port with 610 skins aboard. The report got around that the Director had been sealing near the rookeries, and within the territorial limits claimed by Chile, and that a Chilean cruiser gave her a chase and shot at her. Capt. Gilbert, master of the Director, gives the story an emphatic denial. He says he had only four days' sealing; he caught all his skins either off the Falkland Islands or in proximity to the Patagonian coast.

There are $200,000 for the drill of rural corps, $25,000 for the Thompson memorial fund, and $25,000 for Sir John Thompson's funeral, $500 extra to be allowed for British Columbia judges on circuit, and $200 to Judge Drake for the Westminster penitentiary investigation, and $4000 for medicine and supplies to British Columbia Indians.

DEATH OF ROCKE ROBERTSON.

A Popular Young Victorian Dies at Chatham, Ont.

A. Rocke Robertson, eldest son of the late Mr. Justice Robertson, and nephew of Attorney-General Eberts, died in Chatham, Ontario, this morning. Mr. Robertson left Victoria three weeks ago to visit his family when it was known that he was unfortunately suffering from an incurable disorder. A trip to California had previously been taken with the hope of obtaining relief, but serious complications setting in it was decided best for him to go home. Although not unexpected, news of his death greatly shocked his friends, who are legion in the city. Possessing a most lovable and unselfish disposition, he had endeared himself to a large circle of friends. For the past three years he has been deputy registrar of the county court, and those who had occasion to transact business there will attest to the obliging and considerate treatment accorded them at all times by Mr. Robertson. He was an ardent lover of sports, being a member of the Victoria Rugby football club and the game club. He was 26 years of age.
